ROHIT RAMCHANDRA MAJAGE

Engineer

+91 9731229973 | rohitmajage1062@gmail.com | Website | GitHub | Instagram

CAREER OBJECTIVE

To leverage my background in Mechanical Engineering with a Minor in Artificial Intelligence to design and develop smart, efficient, and sustainable technologies. I aim to apply AI/ML techniques to enhance mechanical systems, drive innovation, and contribute to the advancement of intelligent industry solutions.

EDUCATION

KOGNOLI HIGH-SCHOOL KOGNOLI *Jun 2019 – Jul 2020*
10TH

SNJPSNMS INDP PU COLLEGE,NIDSOSHI *Jul 2021 – Apr 2022*
12TH/PUC

KLE COLLEGE OF ENGINEERING AND TECHNOLOGY CHIKODI *Aug 2022 – Present*
ENGINEERING

PROJECTS

Solenoidal Engine *Oct 2024 – Aug 2025*

- Developed a Solenoidal Engine,which uses electromagnets instead of fuel to create motion. The engine works by using electromagnetic solenoids to produce a push-pull effect, generating linear movement.This movement is then converted into rotational motion to drive a mechanical system.

Predictive Maintenance For Industrial Motors Using Vibration And Temperature Sensor Data *Jul 2025 – Aug 2025*

- Industrial motors are critical components across various sectors, including manufacturing, transportation, and energy. Unexpected motor failures lead to significant operational disruptions, incurring high maintenance costs and substantial production losses. Traditional maintenance strategies, such as time-based or reactive approaches, are often inefficient and cost-prohibitive.
- This project aims to develop an advanced predictive maintenance system that leverages vibration and temperature sensor data to accurately assess motor health and proactively detect potential failures before they occur.

TECHNICAL SKILLS

- Python
- HTML5
- Computer-Aided Design (CAD)
- MATLAB
- C
- SolidWorks
- NumPy
- Machine Learning
- Deep Learning
- Visual Studio Code
- Finite Element Analysis (FEA)

SOFT SKILLS

- Teamwork & Collaboration
- Problem Solving
- Critical Thinking
- Time Management
- Adaptability & Learning Agility
- Leadership & Responsibility
- Creativity & Innovation

CERTIFICATIONS

An Introduction to Artificial Intelligence — *VTU* *Sep 2024 – Dec 2024*

Introduction to Machine Learning — *VTU* *Dec 2024 – Mar 2025*

Deep Learning — *VTU* *Apr 2025 – Aug 2025*

Reinforcement Learning — *VTU* *May 2025 – Aug 2025*

Natural Language Processing — *VTU* *Mar 2025 – Aug 2025*

Artificial Intelligence: Knowledge Representation and Reasoning — *VTU* *Feb 2025 – Aug 2025*
